

# Preparing for planning

[< Back to step 5](#) | [Next topic >](#)

This step is information for people who successfully receive funding through the NDIS to help them be better prepared for the NDIS planning process. It only covers basic information you need to know because the National Disability Insurance Agency and their Local Area Coordinator community partners, or your Coordinator of Supports, will provide you with support in developing your NDIS plan.

NDIS participants who helped us design this site tell us the more thought you put into your vision for a meaningful life, the better the planning process and experience will be so if you haven't already, you might like to complete the 'Reimagine your life' section in your [reimagine.today workbook](#).
